

Dr. Kiran Kancharla

Board Certified Hematologist/Oncologist

I know my patients rely on me for more than just medicine. It is a privilege and an honor to be by their side throughout their cancer journey.

Dr. Kiran Kancharla is board certified in internal medicine, hematology and oncology. She earned her medical degree from Osmania Medical College in Hyderabad, Andhra Pradesh, India, then came to the United States for her residency and fellowship training, both of which she completed at Loyola University in Chicago.

Dr. Kancharla brings a special empathy to her practice. She decided to specialize in oncology after caring for her own father who was diagnosed with lymphoma at the age of 42. Dr. Kancharla realizes a cancer diagnosis affects not only the patient, but also the patient's support system. She is committed to spending time with her patients and their family to ensure everyone feels comfortable with and confident in the personalized cancer treatment plan she develops. Dr. Kancharla has a special interest in lymphomas, breast, gastrointestinal and lung cancers, but she is well trained to treat a broad range of benign hematology and other malignancies.

Dr. Kancharla sees patients at Las Colinas Cancer Center, Southlake Oncology and Lewisville/Flower Mound Oncology Group.

Dr. Kancharla shares a busy and fulfilling life with her husband and a teenaged son and daughter. The Kancharla family is active in the local Indian community, and Dr. Kancharla enjoys cooking, traveling and music.
